

## ACTS Daily Consultancy Rates 2018/19

### General Principles:

The table below outlines the proposed Birmingham city-wide agreed daily consultancy rates for all schools. Charges are based on a full day rate; for twilights/half days please adjust accordingly. The idea behind the daily consultancy rates is that charges are based on the complexity of the work, rather than the role or designation of the person carrying it out. Some examples of the nature of the work are given for each charging band – this list is by no means exhaustive and is for illustration purposes only; colleagues recognise the wide range of support requests and the need for flexibility as school-to-school support partnerships develop. In putting forward the proposed charges, colleagues are also mindful of the benefits of providing school-to-school support as ongoing professional development for staff in the commissioned school.
